Grant Guidelines:

The project proposed should contribute to the educational, agricultural promotion, or community service missions of both the Jefferson County Agribusiness Club and the organization applying for the Grant.

The project should be either a new endeavor or one that enhances an existing program of your organization. The Grant request can be for full funding of a smaller project, for specific items needed to fulfill your organization's mission, or partial funding of a larger project.

The monetary value of each grant awarded will depend on the number and merit of the proposals received, but the expected range will be \$200-\$1000. Grants will be awarded in two increments, with the first being given by the date indicated on the Grant Application form and the remaining balance awarded after all grant requirements have been fulfilled.
